

# Injection Files System

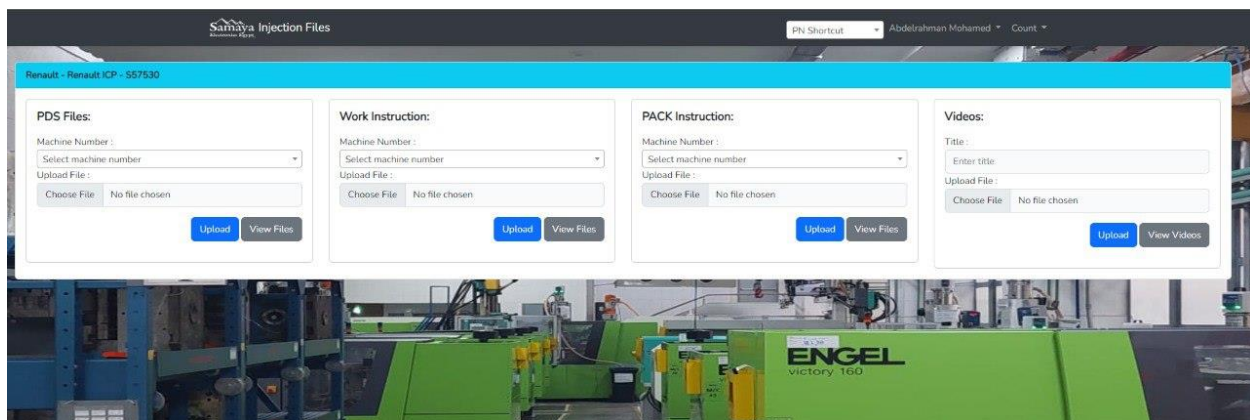

1. First page is a login page where you should login with your given credentials (Your credentials are given with certain access roles (Administrator or User)).

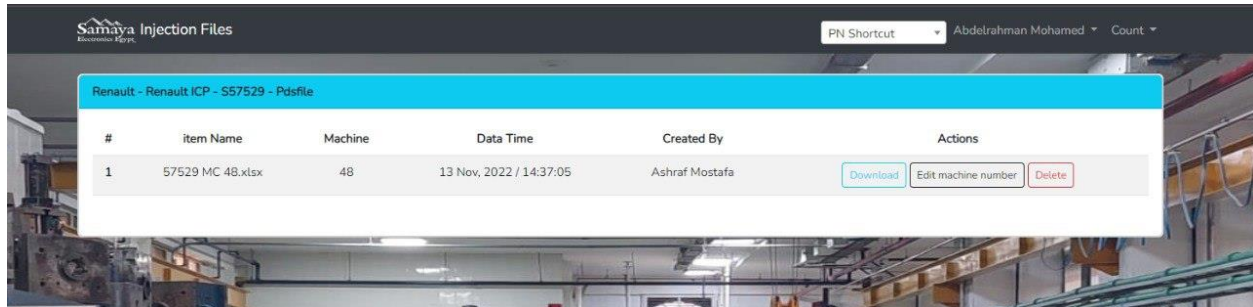

2. The next page, you may select: Company, Module, and Part number you want to search.
  - Note: Part number is related to Module, and Module is related to Company.Or you may select the part number in the upper selection directly.

3. By pressing on PN Shortcut, a menu will appear containing Part numbers, the user is able to search directly for part number

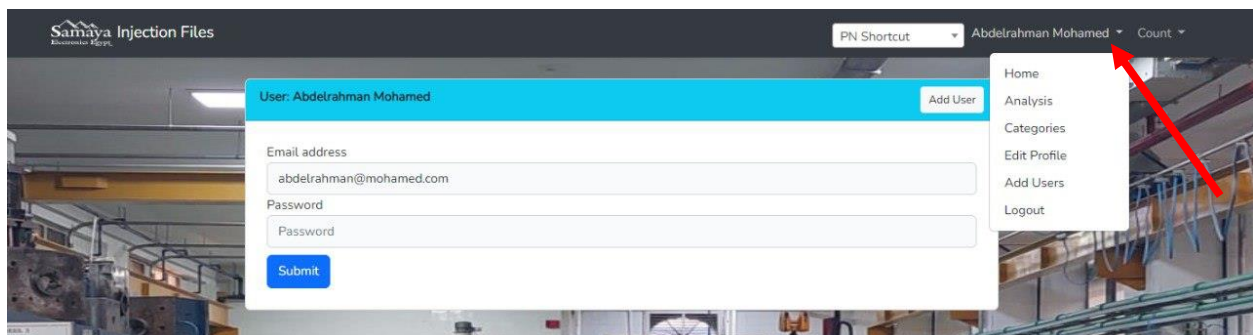

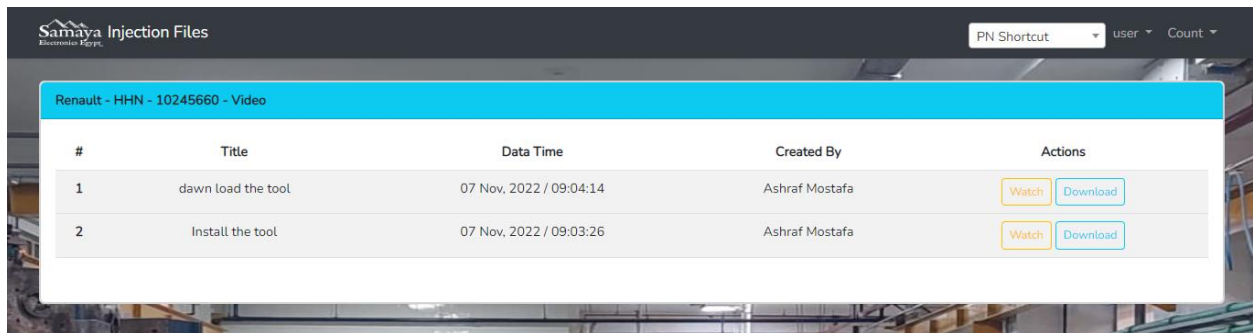

4. If the user has, “Administrator” permission, he will have access to this page, where he may upload or view PDS, Work Instructions, Pack Instructions, or Videos.
  - Note: All files should be of type: PDF, Excel, or Word documents.
  - For Videos, the videos should be of size less than 50MB, if the videos are larger than this size then use a compression tool (exp: Handbrake) to resize the videos to be able to upload them.
  - Naming the videos (Title) should be unique, where no 2 videos should have the same name
  - Separate documentation is found on how to compress a video using handbrake

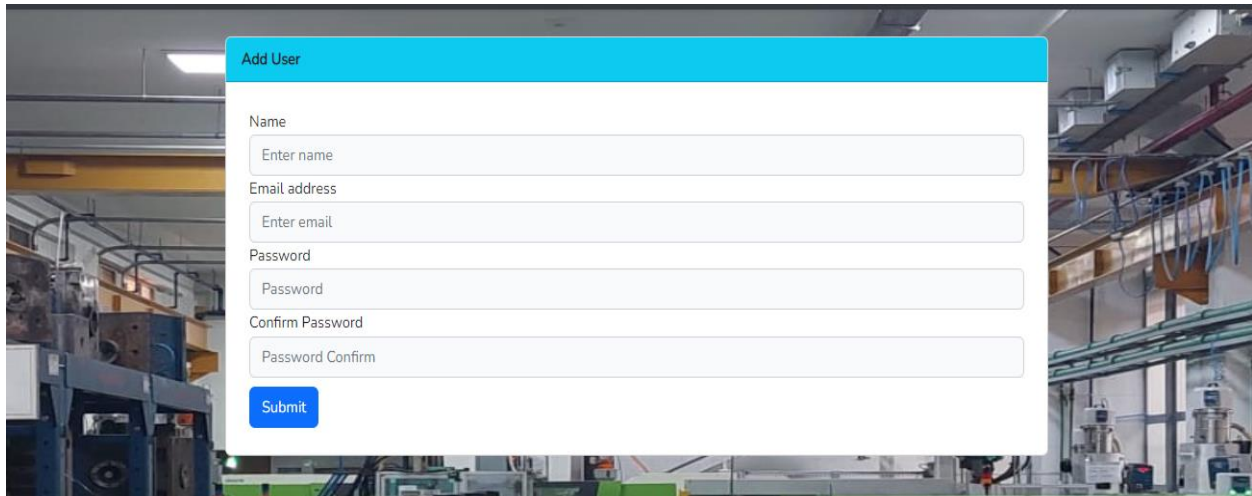

5. Upon pressing on “View” button, you will be redirected to this page where you can see the uploaded files.

Note:

- If the user is accredited with “Administrator” access, then he is able to view all history data uploaded to this file, user may also be able to edit the machine number and delete the file.
- If the user is “User” accredited access then he may only watch or download the previously uploaded file(s) as seen in the image below.

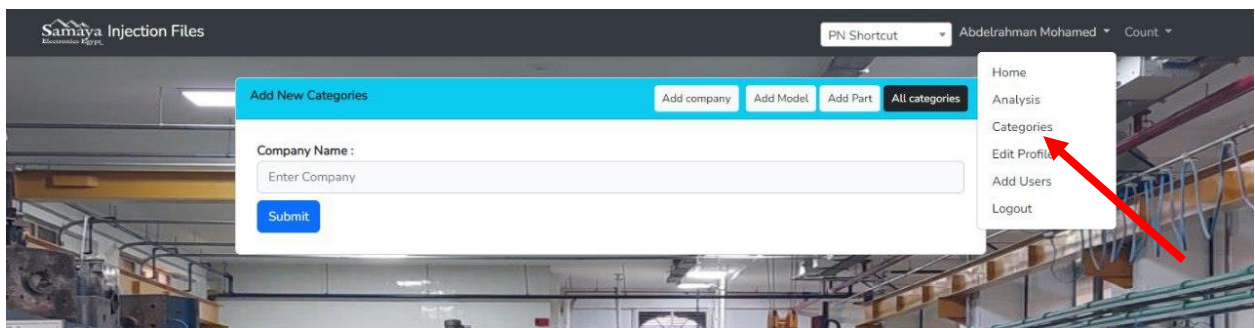

- As an administrator the user has access to edit and add users and profiles, upon pressing on the user on the right top of the page, the menu will drop down and you may select which option is required.

The screenshot shows a modal window titled "Add User" with a blue header. It contains four input fields: "Name" (placeholder: "Enter name"), "Email address" (placeholder: "Enter email"), "Password" (placeholder: "Password"), and "Confirm Password" (placeholder: "Password Confirm"). A blue "Submit" button is located at the bottom left of the form.

- If add user button is pressed, redirection will be made to this page where you may add a user, this user will be granted "User" permission and not an "Administrator" permission, if you want to give an "Administrator" permission to any user, you may contact "EPD Department".

The screenshot shows the "Add New Categories" page. At the top, there is a header with "Samaya Injection Files" and a user profile "Abdelrahman Mohamed". Below the header, there are buttons for "Add company", "Add Model", "Add Part", and "All categories". A modal window titled "Add New Categories" is open, showing a "Company Name" input field and a "Submit" button. A dropdown menu is open on the right side of the page, listing "Home", "Analysis", "Categories", "Edit Profile", "Add Users", and "Logout". A red arrow points to the "Categories" option in the dropdown menu.

- Upon Selecting "Categories" in this menu, you will be directed to this page, where you can add a new "Category", a new Company, Model, and Part. These three categories are related to each other, you may only add a model if a previous related company is added, and thus a new part may be added only if a previous related model exists.

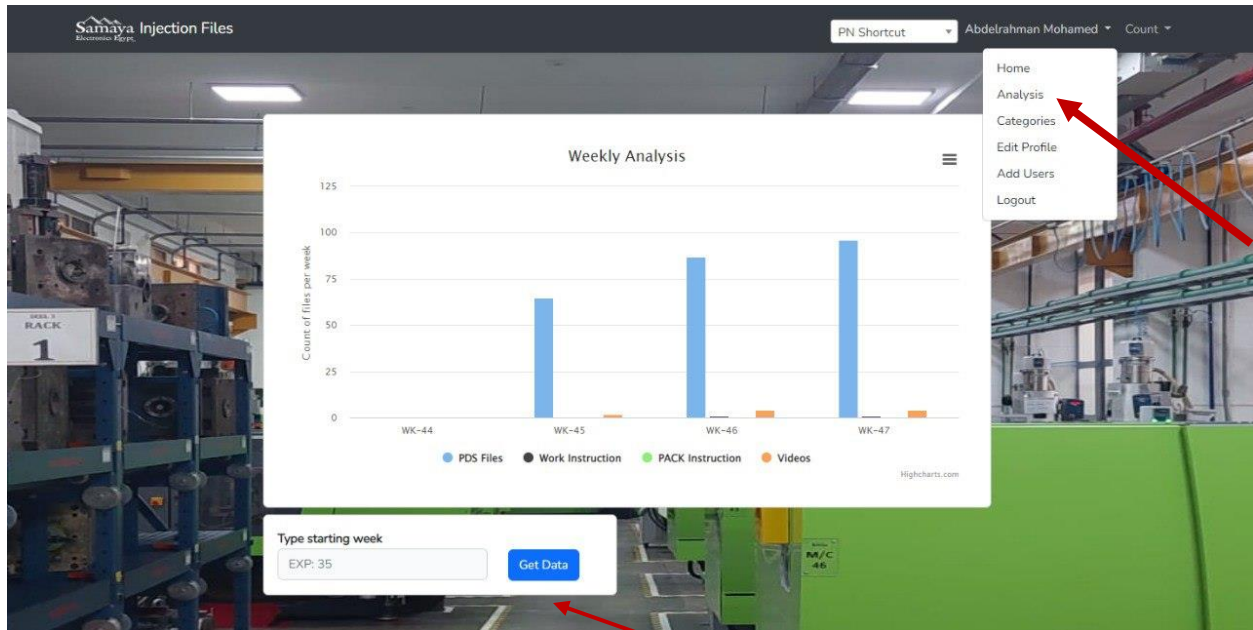

9. If “All Category” Button is pressed then this menu will appear where the user may edit or delete (Companies, Models or Parts).

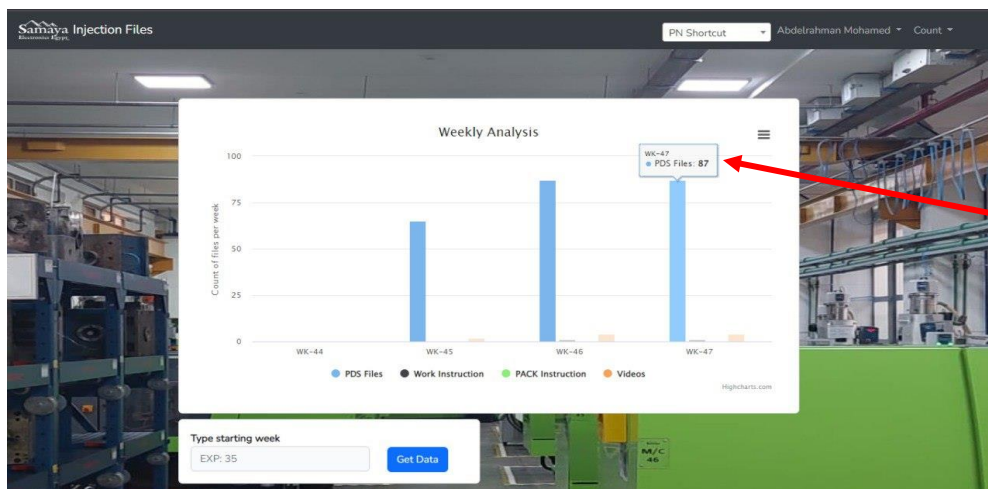

10. Upon pressing on the “Count” Button, a dropdown will appear showing the total PDS, Work, Pack and Video Files uploaded on the system since day 1.

11. When Analysis Button is pressed, the user will be redirected to this page where he may check the analysis for the uploaded files (PDS, Work, Pack, and Video) this analysis shows them as total uploads and weekly uploads.

- In the menu shown on the left bottom of the page, the user may enter the number of “week” he wants the graph to start from (exp: Week 5), and the graph will resize to cope with the selected data from the week selected till the current week.

12. When mouse hovers over a bar in the graph, it will show the reading of the total count of uploaded videos till the selected week.
